

Cabinet lift system ECO IR

*Compatible with most TV remotes

K-Eco series is a budget version of K-Type. Operated with the IR receiver attached. The receiver needs to be put outside the furniture for the proper signal receipt. Easy remote learning procedure thanks to the IR-Multicode system allows using any TV's remote for controlling the lift. IR remote is not attached - you can use any remote that operates in most popular IR bandwidth. The unit is equipped with electric motor safety system, that prevents the motor from overheating by carrying a load that is heavier than possible. The viewing position is programmed with the control box. Universal TV mount covers VESA standards from 200x200 to 600x600 and everything in between. Digital display to show all the necessary operational commands and programming modes.

**Universal IR
multicode receiver**

**Easy stroke
adjustment**

**5 year
warranty**
